HOW I WORK

I'm deployed to the Ethereum blockchain network, I can't be deleted or changed. I'm sure that it's impossible to hack me.

Even if someone closed this domain name, I will continue to work as long as the blockchain exists.

The code is opensource, anyone can read and audited how I work.

I do not keep the funds of my participants on the balance. My task is to redirect users transactions from wallet to wallet, according to the given marketing conditions.

I have the simplest, fastest and friendliest marketing plan, as well the ability to repeat the profit cycle every 100 days.

A 24/7 support group from active members will help you take simple steps to start earning regularly with me.

There is everything you need for easy work:

- step by step training
- cool promotional materials
- sales funnels
- chat bots
- VIP training courses

My main goal is to make you rich, kind and happy

A smart contract is the best that mankind could come up with in recent years, with the exception of scalp scratchers, this is also a very cool thing.

MARKETING PLAN

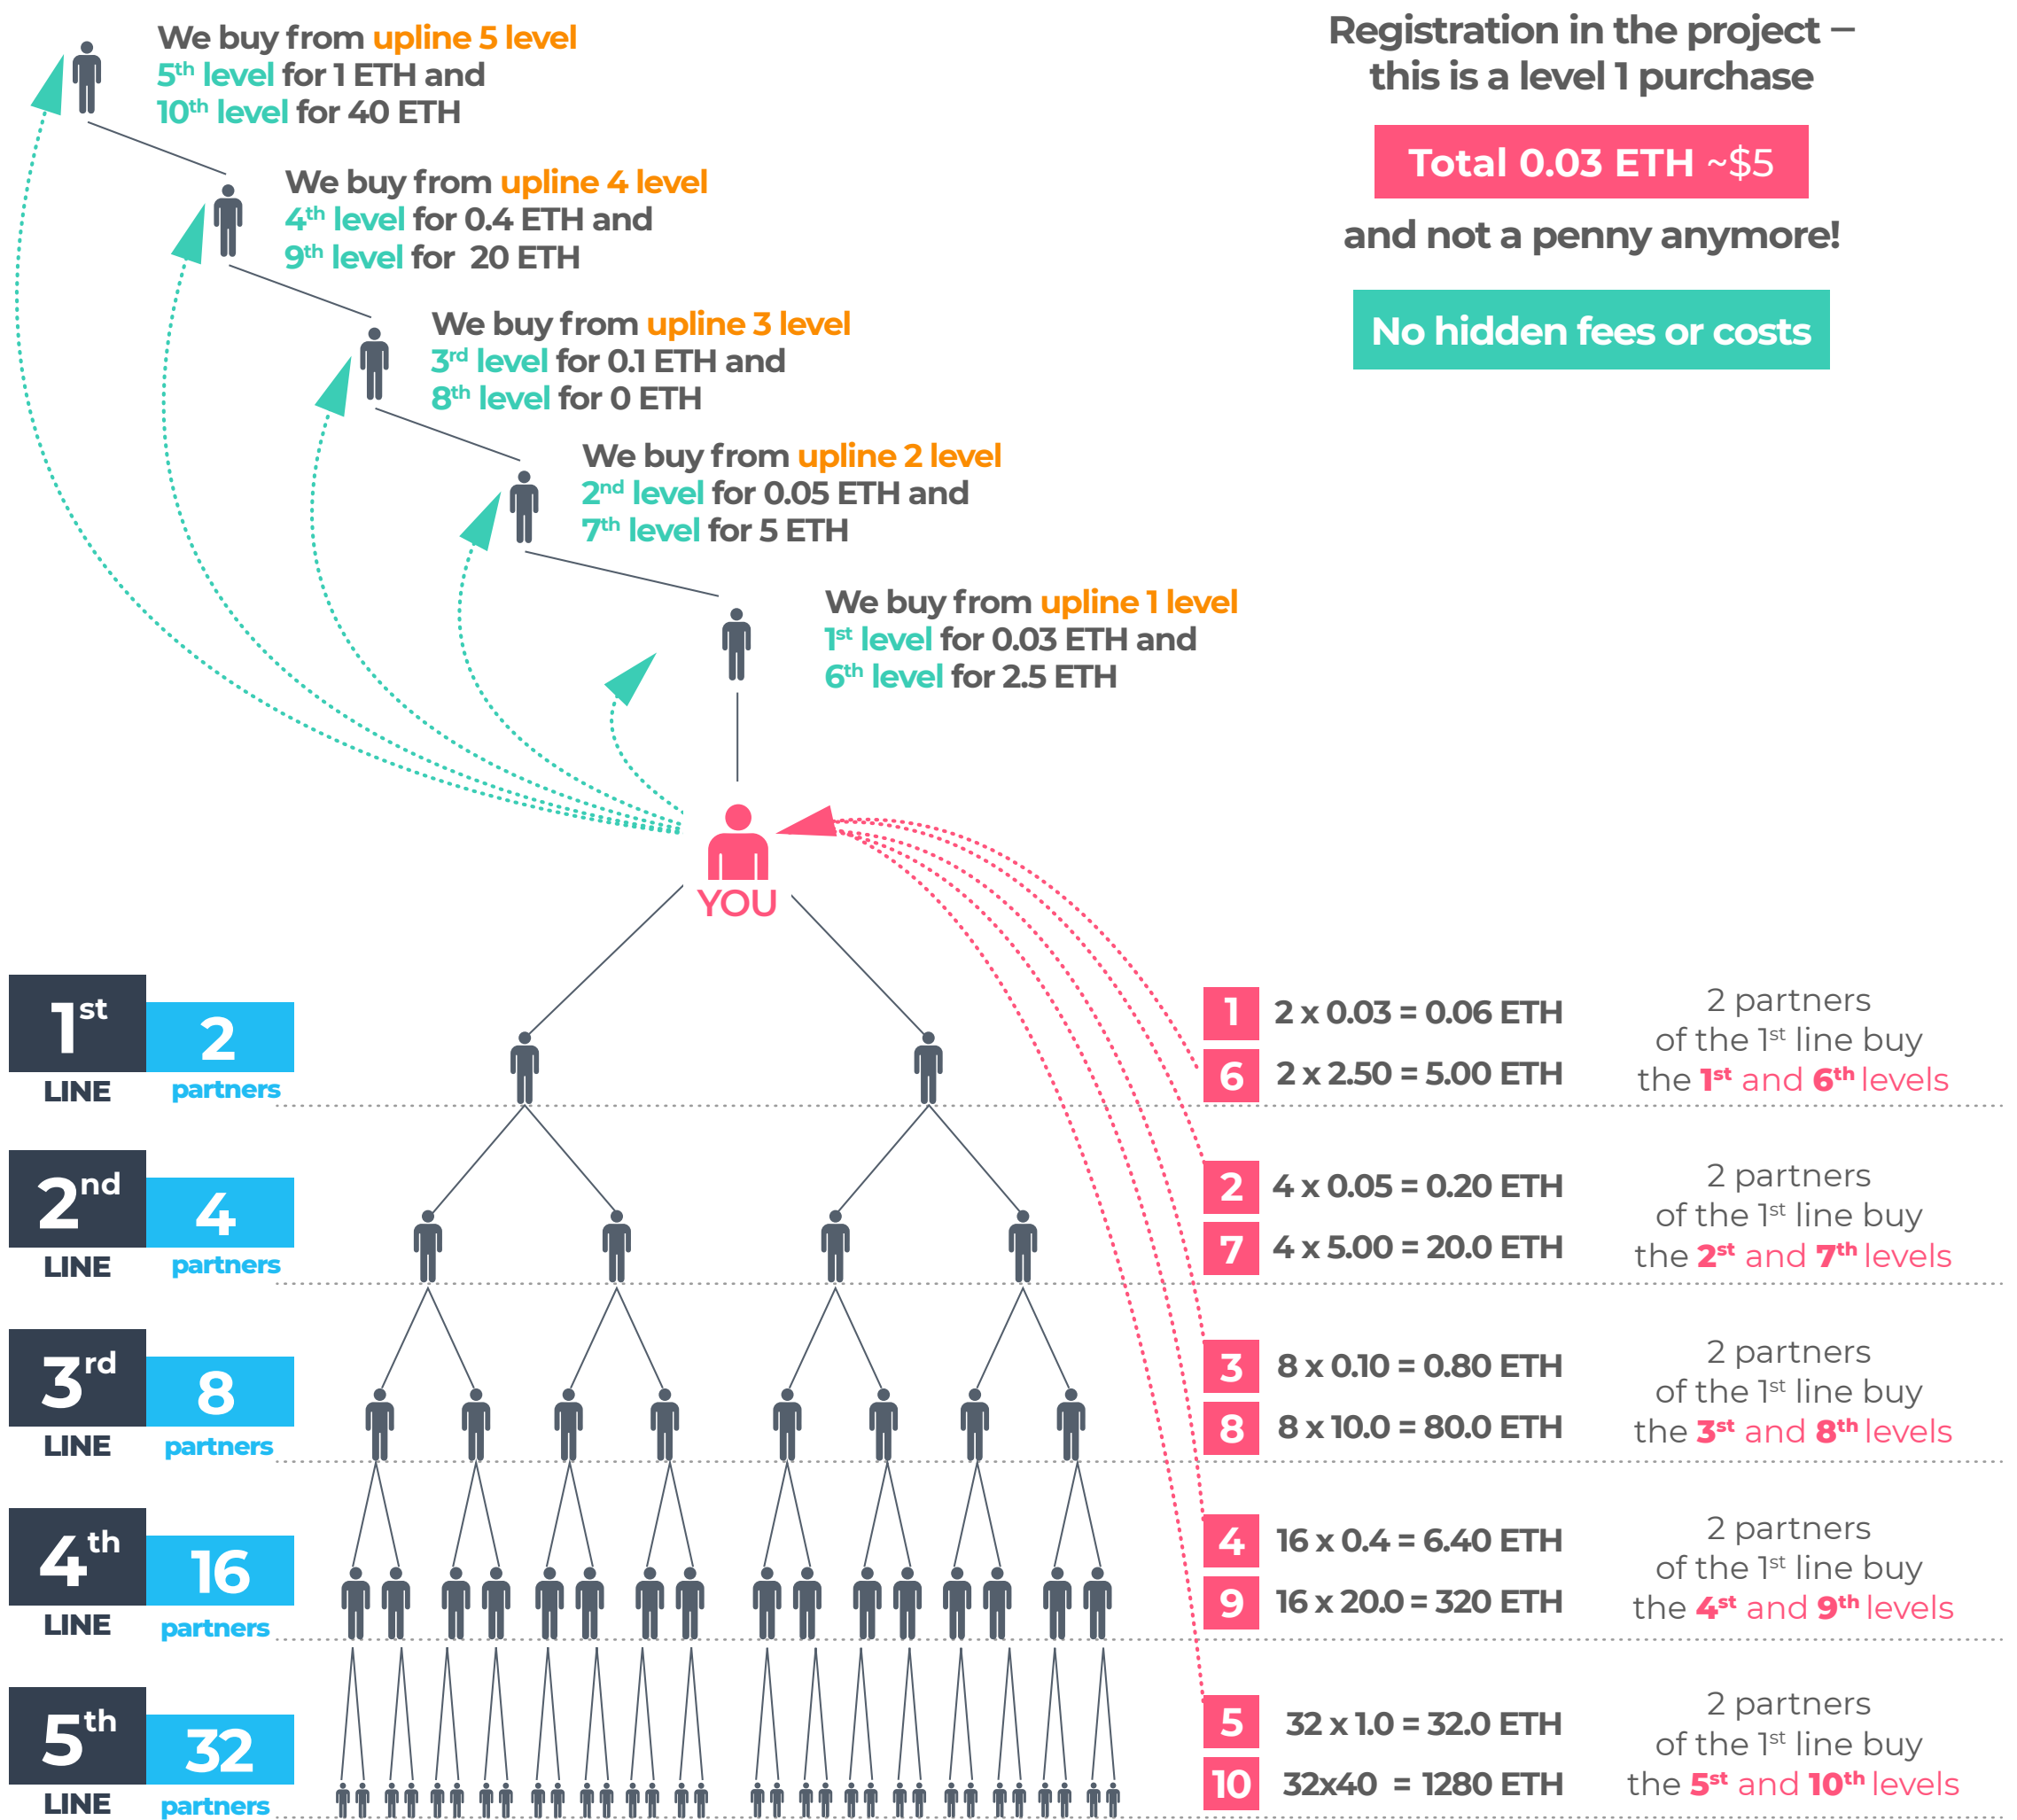

GENIUS AND SIMPLE BINAR

Everything that you did not like in binary marketing is absent in me, no long sponsorship legs, no bonuses for personally invited

62 people in a team of 5 lines

5 lines buy levels in 2 cycles

This is enough to earn 1500 ETH every 100 days.

LEVEL PRICE FOR 100 DAYS

LEVEL 1 0.03 ETH	LEVEL 2 0.05 ETH	LEVEL 3 0.1 ETH	LEVEL 4 0.4 ETH	LEVEL 5 1 ETH	LEVEL 6 2.5 ETH	LEVEL 7 5 ETH	LEVEL 8 10 ETH	LEVEL 9 20 ETH	LEVEL 10 40 ETH
----------------------------	----------------------------	---------------------------	---------------------------	-------------------------	---------------------------	-------------------------	--------------------------	--------------------------	---------------------------

* ATTENTION!! LOST PROFIT

If you have not bought the level that your partners buy from you, the payment redirect up to the upline from which you should have bought the level. Carefully monitor the growth of your structure and pre-buy the level that they will buy from you so as not to miss your profit.
